

Dear YLD Members,

The election to select the next President-Elect of The Florida Bar runs from March 1, 2022 through March 21, 2022. We, **23 Past Presidents of the past Young Lawyers Division ("YLD")**, including the last 15 Presidents (that are allowed to endorse a candidate) encourage you to vote for Scott Westheimer. The President of The Florida Bar greatly impacts young lawyers specifically, that is why we believe Scott will best represent the needs of our members.

This is not an endorsement by the YLD but a personal recommendation from each of us who know, respect, and wholeheartedly believe that Scott is the leader our Bar needs right now. He is a former YLD Board of Governors member and has served on The Florida Bar Board of Governors since 2013. He has a proven track record of embracing innovation, leading collaboratively, and making sure all attorneys are represented. In fact, Scott developed and led the teams that rebuilt and rebranded the Bar website and created [LegalFuel.com](https://www.LegalFuel.com). This popular tool has transformed how many attorneys practice through free practice management and technology tools, resources, and over 200 hours of free CLEs. He also developed a free tech support helpline so members have free tech support.

Scott's been endorsed by more than 1,100 attorneys statewide, the 23 Past YLD Presidents listed below and also 140 additional past and present YLD Board of Governors members. Visit [ElectWestheimer.com](https://www.ElectWestheimer.com) to see the full list of Scott's endorsers and why he is the best choice to lead The Florida Bar. You can also share, like, or follow Scott's social media pages to keep up as he continues his campaign. [Facebook](#), [Twitter](#), [LinkedIn](#) and [Instagram](#).

You will receive an electronic ballot on March 1st and a paper ballot during the first week of March (if you did not opt to receive only the electronic ballot). Vote for Scott from March 1st-21st and ensure a solid future for young lawyers!

Sincerely,

Scott Atwood
